

Microsoft Access 2013

This course has been mapped to the BSBITA401A - Design Databases competency. It applies

to individuals in a range of work areas who create databases to store and retrieve data.

Product Code: INF940

ISBN: 978-1-925179-64-4

General Description

At the completion of this course you should be able to:

Learning **Outcomes**

- understand how Access is used and how to navigate around it
- design a relational database project
- create a relational database file with multiple tables
- modify the structure of an existing table
- set table relationships and join tables together
- add records to a new table
- add transactional records to a lookup database
- use various data validation features in Access to protect data
- work with the records in a database table
- export records to and import records from a wide variety of sources and applications
- create simple and effective queries
- perform more advanced queries using a variety of querying techniques
- create queries based on one or more tables
- create and use parameter queries
- create calculated queries
- create and work with aggregation queries
- create and use a series of action queries
- create meaningful reports from tables
- create and use forms
- modify and adapt an existing form according to specific needs
- create a navigation form for a database in Access 2013

Prerequisites

BSBITA401A Design Databases assumes little or no knowledge of Microsoft Access 2013. However, it would be beneficial to have a general understanding of personal computers and the Windows operating system environment.

Topic Sheets

251 topics

Methodology

The InFocus series of publications have been written with one topic per page. Topic sheets either contain relevant reference information, or detailed step-by-step instructions designed on a real-world case study scenario. Publications can be used for instructor-led training, self-paced learning, or a combination of the two.

Formats **Available** A4 Black and White, A5 Black and White (quantity order only), A5 Full Colour (quantity order only), Electronic Licence

Companion **Products**

There are a number of complementary titles in the same series as this publication. Information about other relevant publications can be found on our website at www.watsoniapublishing.com.

This information sheet was produced on Tuesday, April 28, 2015 and was accurate at the time of printing. Watsonia Publishing reserves its right to alter the content of the above courseware without notice.

WATSONIA PUBLISHING

Microsoft Access 2013

Product Code: INF940

ISBN: 978-1-925179-64-4

Contents

Getting to Know Access 2013

Understanding Microsoft Access 2013

Starting Access From the Windows Start Screen

Understanding the Start Screen Understanding the Backstage View Opening an Existing Database File Understanding the Access 2013 Screen

Working With the Navigation Pane
Working With Touch Mode
Working With a Table
Working With Other Database
Objects
Closing a Database File

Exiting From Access 2013 Practice Exercise Practice Exercise Sample

Relational Database Design

Designing a Relational Database
Scoping the System
Determining the Inputs
Normalising a Database
First Normal Form (1NF)
Second Normal Form (2NF)
Second Normal Form Case Study
Third Normal Form (3NF)
Database Indexing
Practice Exercise
Practice Exercise Sample

Creating a Relational Database

Creating a New Database File
Creating Lookup Tables
Defining a Primary Key
Saving and Closing a Table
Creating the Expense Type Table
Creating the Transactions Table
Creating the Details Table
Practice Exercise
Practice Exercise Data

Modifying Table Structures

Opening an Existing Table Adding Fields to an Existing Table Understanding Field Properties Changing Field Size Changing Field Names
Changing Decimal Places
Changing Date Formats
Indexing Fields
Deleting Fields From a Table
Copying a Table Within a Database
Deleting a Table From a Database
File

Practice Exercise
Practice Exercise Sample

Setting Table Relationships

Understanding Table Relationships
Understanding Lookup Relationships
Looking Up the Employees Table
Looking Up the Expense Types Table
Viewing Table Relationships
Understanding Table Joins
Editing the Employee Table Join
Editing the Expense Type Table Join
Creating a New Join
Creating a Relationship Report
Practice Exercise
Practice Exercise Sample

Adding Records to a Table

Typing Records in a Table
Adding Records Using a Form
Saving a Form Layout for Reuse
Adding Records Using an Existing
Form
Assignment Adding Records
Importing From Microsoft Excel
Practice Exercise
Practice Exercise Data

Adding Transactional Records

Typing Transactional Records
Adding Transactional Records Using a
Form
Assignment Adding Transactional
Records
Adding Records Using a
Subdatasheet
Removing a Subdatasheet
Inserting a Subdatasheet
Practice Exercise
Practice Exercise

Data Validation

Assigning Default Values Validation Rules and Text Validating Numbers Setting Required Fields Working With Validations Practice Exercise Practice Exercise Sample

Working With Records

Table Navigation
Navigating to a Specific Record
Editing a Record
Deleting Record Data
Undoing a Change
Deleting a Record
Deleting Several Records
Searching in a Table
Searching in a Field
Finding and Replacing
Printing Records From a Table
Compacting a Database
Practice Exercise
Practice Exercise

Importing and Exporting Records

Exporting Records to Microsoft Excel Exporting Records to a Text File Importing From Microsoft Excel Importing From a Text File Linking to an External Source Practice Exercise Practice Exercise Sample

Creating Queries

Understanding Queries
Creating a Query Design
Working With a Query
Changing a Query Design
Applying Record Criteria
Clearing Selection Criteria
Saving a Query
Running Queries From the
Navigation Pane
Deleting a Query
Assignment Creating Queries
Practice Exercise
Practice Exercise

ANSTE ALIAN MADE & DWNED

47 Greenaway Street Bulleen VIC 3105 Australia ABN 64 060 335 748 Phone: (+61) 3 9851 4000 Fax: (+61) 3 9851 4001 info@watsoniapublishing.com www.watsoniapublishing.com **Product Information**

Microsoft Access 2013

Product Code: INF940 ISBN: 978-1-925179-64-4

Querying Techniques

Modifying a Saved Query **Creating AND Queries Creating OR Queries Querying Numeric Data Querying Dates** Using a Range Expression **Querying Opposite Values** Moving Fields in a Query **Sorting Query Data** Removing Fields From a Query Querying Using Wildcards **Problem Characters** Querying With a Lookup Table Sorting Query Data Numerically **Displaying NULL Values Practice Exercise Practice Exercise Sample**

Multi Table Queries

Understanding Relational Queries Creating a Relational Query Design Filtering a Relational Query Filtering Related Fields Adding More Tables and Fields Utilising Hidden Fields Practice Exercise Practice Exercise Sample

Parameter Queries

Creating a Parameter Query
Displaying All Records
Using Parameters to Display a Range
Using Parameters in Expressions
Practice Exercise
Practice Exercise Sample

Calculations in Queries

Creating a Calculated Field
Formatting Calculated Fields
Summarising Data Using a Query
Changing the Grouping
Calculating With Dates
Using Criteria in Calculations
Concatenating String Fields
Practice Exercise
Practice Exercise Sample

Aggregation Queries

Creating an Aggregation Query Working With Aggregation Queries Multiple Aggregations Modifying Aggregation Headings Aggregating Calculated Fields Applying Criteria to Aggregates Understanding Nested Queries Creating an Assembly Query Creating the Nesting Query Practice Exercise Practice Exercise Sample

Action Queries

Creating a Make Table Query
Using a Make Table Query
Understanding Expressions and
Update Queries
Preparing an Update Query
Running an Update Query
Updating Using Expressions
Running an Expression-Based Update
Creating a Delete Query
Running an Delete Query
Creating an Append Query
Running an Append Query
Turning Action Messages Off
Practice Exercise

Practice Exercise Sample Creating and Using Reports

Understanding Reporting in Access Creating a Basic Report Working With Existing Reports Previewing and Printing a Report Changing the Report Layout Using the Report Wizard Creating a Grouped Report Creating a Statistical Report Working With Grouped Reports Practice Exercise Practice Exercise Sample

Creating and Using Forms

Understanding Forms
Creating a Basic Form
Creating a Split Form
Binding a Form to a Query
Using the Form Wizard
Working With Existing Forms
Editing Records in a Form
Deleting Records Through a Form
Deleting an Unwanted Form
Practice Exercise
Practice Exercise Sample

Modifying Forms Understanding Form Design and

Switching Between Form Views Selecting Form Objects Working With a Control Stack **Changing Control Widths** Moving Controls on a Form **Aligning Controls Understanding Properties Changing Label Captions** Adding an Unbound Control Adding a Control Source Formatting a Control Checking the Current Tab Order Changing the Tab Order Inserting the Date Into the Form Header Practice Exercise Practice Exercise Sample

Using a Navigation Form

Creating a Simple Navigation Form
Creating a More Complex Navigation
Form
Creating the Navigation Form Page
Tabs
Creating Subsidiary Pages
Assignment Adding Subsidiary Pages
Editing Page Tab Names
Applying a Theme
Modifying Properties
Automatically Starting the Navigation
Form
Practice Exercise
Practice Exercise

Unit Mapping

This unit describes the skills and knowledge required to design and develop a database (including queries, forms and reports) to meet a defined need using existing data.

	Performance Criteria	Location
1	Design Databases	
1.1	Review organisational and task requirements to confirm scope and functionality of database design, including data redundancy	Chapter 2: Relational Database Design
1.2	Develop a logical data model to identify and classify data into types	Chapter 2: Relational Database Design
1.3	Select appropriate software according to organisational and task requirements and required scope and functionality of database	Chapter 1: Access 2013 Orientation
1.4	Confirm database design with appropriate person	Generally assumed throughout - can be tested through practice exercises and integration assignment
2	Develop database	
2.1	Set field attributes according to data type and link databases by a common field in accordance with software procedures	Chapter 3: Creating a Relational Database
2.2	Identify primary key to uniquely identify data	Chapter 3: Creating a Relational Database
2.3	Identify foreign keys to establish associations between data	Chapter 2: Relational Database Design, Chapter 3: Creating a Relational Database, Chapter 5: Setting Table Relationships
2.4	Use software functions and formulae to meet organisational and task requirements	Generally assumed throughout. Can be tested through practice exercises and integration assignment
2.5	Create password and access system according to organisational and task requirements	Chapter 21: Using a Navigation Form
3	Develop queries, forms and reports	
3.1	Develop queries as required by organisational and task requirements	Chapter 11: Creating Queries, BSB940-Chapter 8: Data Validation, Chapter 13: Multi Table Queries, Chapter 14: Parameter Queries, Chapter 15: Calculations in Queries, Chapter 16: Aggregation Queries, Chapter 17: Action Queries
3.2	Develop input screens or forms in order to access required data	Chapter 19: Creating and Using Forms, Chapter 20: Modifying Forms
3.3	Develop reports according to organisational and task requirements	Chapter 18: Creating and Using Reports
4	Test and finalise database	
4.1	Populate database with sample dataset for testing	Chapter 6: Adding Records to a Table, Chapter 7: Adding Transactional Records, Chapter 10: Importing and Exporting Records
4.2	Assess and document effectiveness of data relationships, queries, forms and reports	Chapter 8: Data Validation
4.3	Address any errors in database design	Generally assumed throughout. Can be tested through practise exercises and integration assignment
4.4	Name and store database in accordance with organisational requirements and exit the application without data loss or damage	Chapter 3: Creating a Relational Database
4.5	Confirm database readiness with appropriate person	Generally assumed throughout. Can be tested through practise exercises and integration assignment
