About Us

Our company

Watsonia Publishing have been producing and supplying quality courseware for educational and training organisations since 1993. In this time we have gained a reputation for highly accurate, cost effective training products with excellent value and superior quality. Not only have we become the clear market leader in Australia but we have also developed an enviable reputation for innovation in product development. Our courseware is mainly used for instructor-led training and classroom teaching but is also used by individuals who require self-paced learning or distance learning material.

Our philosophy

Our business philosophy is simple and straight to the point: we want to offer you the best quality training courseware you will find anywhere. We therefore aim to continually:

- Produce high quality, technically accurate, easy to use training materials at a reasonable price.
- Offer a product that is original and inventive.
- Produce a product that constantly challenges and sets the benchmark for training material.
- Be innovative in every area of the business.
- Provide the best service achievable.
- Ensure that our product range evolves as software packages and training needs develop.

Why our courseware is different

It's all about the content. Watsonia Publishing's training manuals stand out from the rest because they are different. Our fresh approach to layout and style makes our courseware easy to read and understand. Case studies used in our courseware are based on real life experiences and the writing style is warm and friendly, inviting the reader to learn.

We are one of the few publishing companies in the world to have invested a large amount of time and effort in the development of a Rapid Courseware Development System (RCDS) which we have called the EngineRoom™. Using this system custom courseware can be created literally within minutes.

Unlike most other publishers and courseware suppliers, all of our content is written internally by Watsonia Publishing's own dedicated writing team who are all experienced trainers, each with an in-depth knowledge of what the trainer and learner both need.

Teacher Resources

Our teacher resources are in a league of their own and are a must have for any teacher or trainer. They are packed full of time-saving material to make your job a whole lot easier while getting the best results from your students. Used in conjunction with our manuals, Watsonia Publishing's teacher resources provide teachers and trainers with the complete training solution.

When you purchase the teacher resources pack for a manual from us, you'll get:

- The course outline in PDF and Microsoft Word format
- Pre and post-course surveys
- A comprehensive test bank of true/false, multiple choice and written response questions and answers
- Quick reference and handy tip handouts
- Practice exercises and solutions for chapter review (where available)
- Ongoing access to updates

Teacher resource packs are purchased as a site licence so you can reproduce them as much as you want, as long as they are used in conjunction with Watsonia Publishing training manuals. All documents are provided in Microsoft Word format so that they can easily be modified.

Teacher resources are available for just **\$95.00** per title.

Licensing

A licence entitles you to reproduce one or more titles within our range as many times as you like, so it's the ideal solution for those who do a lot of training in the same product. Most of the titles in our catalogue can be licensed and there are no quantity or time restrictions. The only restriction is that the reproduced courseware cannot be sold outside of a recognised training program.

The benefits speak for themselves:

- You can use your own covers, inserts and footers at no additional cost
- By using our tailor made service you can customise your licence with no extra charge
- There are no time restrictions on the use of the licence - use it for as long as you like and you won't incur any additional costs
- There are no quantity restrictions on your licence - you can print as many copies as you like

It's worth considering a licence if:

- You need to use a large number of manuals of the same title
- You have access to printing and binding at a reasonable price and are happy to organise the logistics yourself
- You already have your own covers

If most of these points apply to you then a licence may be a very viable and profitable solution.

Licensing a manual

When you purchase a single manual licence from us, you'll get the manual in PDF format for printing, the manual in Microsoft Word format for modifying (where available), the manual's chapters in Word format, the associated exercise files, any challenge exercises that have been created for the manual, student handouts such as tests, surveys and quick references, and ongoing access to updates. You'll also get the same files for the version of the manual with challenge exercises if one has been created.

Licence bundles

When you purchase a licence bundle from us, you'll get the files for all of the manuals in the bundle. That includes the manual in PDF format, the manual in Microsoft Word format (where available), The manual's chapters in Word format, the manual's associated exercise files, any challenge exercises that have been created for the manual, student handouts such as tests, surveys and quick references (where available) and ongoing access to updates and new training material. You'll also get a full courseware customisation kit which includes all of the Microsoft Word content files that are used to build our manuals as well as access to our EngineRoom Desktop application so that you can put together custom manuals tailor-made to your requirements.

Quality Partner program

Imagine having constant access to the latest computer courseware right at your fingertips any time you need it and all at a very affordable price! Watsonia Publishing now gives you the unique opportunity to share in our knowledge by offering you the Quality Partner program, specifically designed to give you access to the most diverse computer courseware on the market.

Your Quality Partner membership will provide you with the full range of our courseware together with ongoing releases of all new and updated courseware. With a Quality Partner membership you'll never need to worry about upgrading courseware again – we'll be doing it for you!

Customisation

Watsonia Publishing's customisation service is different because we're able to cater for almost every level of customisation possible. Take a look below to find the variety of ways we can customise a manual to suit you.

Use your covers and footer text

Send us either your printed covers or email us the electronic version and we'll place them on your books for a minimal charge of **\$1.50** per printed manual.

If you use custom covers we can also customise all footers to show the name of your organisation, contact details and other information.

Tailor-made content

Thanks to our unique EngineRoom™ software we can mix and match content and develop a totally new publication literally within minutes. This option is only available for orders of more than ten manuals.

\$10 + 16c p/ topic page (including chapter start pages)

\$10 + 27c p/ topic page for Microsoft Project

Contact Watsonia Publishing for a Custom Manual Request form.
